

# Start the Year with a Home System Check

A simple checklist to help keep your home safe, comfortable, and efficient.

## Why This Matters

A new year is the perfect time to check the systems you rely on every day. Regular checks help prevent unexpected breakdowns, improve efficiency, & keep your home safe.

### HVAC SYSTEM

- ☐ Replace or clean air filters
- ☐ Check for unusual noises or odors
- ☐ Make sure vents are clear & unobstructed
- ☐ Schedule a professional check

### ELECTRICAL SYSTEM

- ☐ Test outlets and switches
- ☐ Check breaker panel for frequent trips
- ☐ Inspect cords for wear or damage
- ☐ Consider a professional safety check

### GENERAL HOME SAFETY

- ☐ Test smoke and carbon monoxide detectors
- ☐ Check thermostat settings
- ☐ Look for signs of drafts or inefficiency

- ✓ Licensed and experienced professionals
- ✓ Trusted by homeowners across the Philly area
- ✓ HVAC, electrical, and home services in one place

#### PRO TIP

If you notice unusual sounds, frequent system issues, or higher-than-normal energy bills, it's best to have a professional take a look.
