YEARLY MAINTENANCE VISITS

For Only
\$18.95 a
Month

ELECTRICAL

Our expert electricians carefully inspect your electrical panel, wiring, outlets, switches, and safety devices to identify potential hazards, wear, or code concerns before they become costly problems.

HEATING

Our heating experts inspect and test key components, connections, safety controls, and thermostat operation. We also check airflow, carbon monoxide levels, and overall system performance to catch potential issues early.

COOLING

Technicians perform a thorough inspection to ensure your system is operating safely, efficiently, and reliably. We look at overall system performance, inspect key components, and look for signs of wear or possible issues.

FREQUENTLY ASKED QUESTIONS

Who is this plan best suited for?

This plan is ideal for homeowners who value convenience, comfort, and peace of mind. With GEN3 handling routine electrical and HVAC maintenance, you'll have fewer surprises, less stress, and a comfortable home year-round!

How often will I be billed?

Your card on file will be charged the first of every month.

Can I pay yearly?

We bill monthly to give you maximum flexibility. We focus on delivering value every visit, without locking you into a long-term contract.

If my home includes more than one HVAC system, do I need more than one membership?

One membership covers all HVAC systems in your home!

Can I transfer my plan if I move?

Yes! Your plan can be transferred anywhere within our service area, so you continue enjoying the same coverage and peace of mind in your new home.

Are the electric and HVAC maintenance performed by the same technician?

Each service is completed by a specialist trained in that specific trade, so your electrical and HVAC equipment always receives expert-level care.

Is there a penalty for canceling?

We don't charge cancellation fees. Just keep in mind that ending your plan also ends your maintenance coverage and any extended
